B1-Y

SafeAir Ozone Badge

SAFEAIR SYSTEM

The SafeAir system consists of a direct reading colorimetric badge and a color comparison chart. SafeAir badges are available for 21 different gases.

- . Provides immediate visual indication when specific chemical is present
- . Homogeneous and stable color formation due to coated indicator layer
- . Highly sensitive and selective
- . Ideal for leak detection and daily exposure screening
- . No laboratory analysis needed

This simple inexpensive badge can be placed on any one for quick detection to ozone gas.

Provides immediate visual indication when ozone is present

B1-Y ozone badge is perfect for instant ozone awareness.
